

Cornus sericea

Family: Cornaceae

Common Name: Red Twig Dogwood

- Height: 6-9'
- Spread: 7-10'
- Light requirements: Full sun to part shade
- Soil: adaptable to many types of soils; rich, fertile, consistently moist
- Flower color: showy; clusters of whitish (sometimes with a bluish tinge) drupes in late spring/summer
- Growth: Deciduous shrub
- Native Origin: Eastern North America
- Interesting Fact: The showy fruits and flowers are quite attractive to birds and butterflies
